

Deneb Medical (www.denebmedical.com) is a start-up based in San Sebastian (Spain) focused in the development of a novel surgical CoBot. The company is looking for an **Expert in Laser Processing** that will work in the design, integration, and experimental validation of different optical systems.

This is an excellent opportunity for an engineer or a physicist with broad experience in the field of optics, photonics and laser processing seeking to apply his talent and knowledge in the medical devices industry. The candidate will have a great degree of freedom to put his/her skills into practice in an ambitious project with international reach and excellent future perspectives.

Requirements:

- A minimum of 5-year experience in laser laboratory instrumentation and skills in experimental optics
- Deep knowledge in laser processing
- Master's degree or PhD in Engineering, Optics, or Physics
- Fluent in English

If you are interested, please send an email with your CV and cover letter to info@denebmedical.com.
