

Deneb Medical (www.denebmedical.com) is a start-up based in San Sebastian (Spain) focused in the development of a novel surgical CoBot. The company is looking for a **Control Engineer** that will implement new control developments.

This is an excellent opportunity for a young engineer with a genuine interest in the development of real time control algorithms and robotics seeking to apply his/her talent and knowledge in the medical industry. The candidate will have a great degree of freedom to put his skills into practice in an ambitious project with international reach and excellent future perspectives.

Requirements:

- Master's degree in engineering
- Experience in modelling and simulation
- Knowledge of C++ and Matlab/Simulink
- Fluent in English

If you are interested please send an email with your CV, academic record and cover letter to info@denebmedical.com.
