

Deneb Medical (www.denebmedical.com) is a start-up based in San Sebastian (Spain) focused on the development of a first-of-its-kind surgical robot with a huge market impact potential. The company is backed-up by the European Commission and the Medtech Innovator organisation ([Medtech Innovator](#)).

We are looking for a **Test Engineer** that will participate in the validation and improvement of our novel surgical robot. His/her main duties will be:

- Test setup design and mounting
- Test execution
- Result analysis and identification of improvement opportunities
- Design and deployment of improvement ideas

The candidate will have a great degree of freedom to put his/her talent into practice in this solid start-up while working side by side with experienced colleagues.

Requirements:

- Master's degree in Engineering
- A natural talent for practical work
- Creativity for finding solutions to hard problems
- Autonomy to learn from problems and implement solutions
- Fluent in English
- No prior professional experience is required

If you are interested please send an email with your CV, academic record and cover letter to info@denebmedical.com.
