

Deneb Medical ([www.denebmedical.com](http://www.denebmedical.com)) is a start-up based in San Sebastian (Spain) focused on the development of a first-of-its-kind surgical robot with a huge market impact potential. The company is backed-up by the European Commission and the Medtech Innovator organisation ([Medtech Innovator](#)).

We are looking for a **Software Development Engineer** that will participate in the development of a novel surgical robotic system. This is an excellent opportunity for a young skilled software developer that would love to devote his/her talent to improving people's lives.

The candidate will have a great degree of freedom to put his/her talent into practice in this solid start-up while learning from experienced colleagues.

Requirements:

- Master's degree in Engineering
- Genuine passion for software development
- Fluent in English

If you are interested please send an email with your CV, academic record and cover letter to [info@denebmedical.com](mailto:info@denebmedical.com).
