

Deneb Medical ([www.denebmedical.com](http://www.denebmedical.com)) is a start-up based in San Sebastian (Spain) focused on the development of an innovative surgical robot for spinal surgery. The company is backed by renowned private venture capital firms, the European Commission and the Medtech Innovator organisation (Medtech Innovator).

We are currently looking for a **Test Engineer** to join the Verification and Validation Team with a specific focus on developing tests with the robot, as well as analysing the results to propose modifications and improvements. An excellent opportunity for an ambitious and qualified engineer who wants to dedicate his talent to improve people's lives, as part of a young and dynamic team of experienced experts.

The candidate will have a high degree of freedom to put his or her talents to work in this strong start-up while learning from experienced colleagues.

Requirements:

- Graduate in Telecommunication Engineering, Automation and Electronics, Computer Science, Industrial or similar.
- Experience in similar positions will be an asset, but is not mandatory.
- Willingness to work hard and learn
- Rigour in work and critical spirit to help improve the system
- Ability to work as part of a team
- Ability to learn continuously
- Fluent in English

We offer:

- Joining a leading technology startup that offers disruptive medical solutions.
- Possibilities for professional development
