

Deneb Medical (www.denebmedical.com) is a start-up based in San Sebastian (Spain) focused on the development of a **first-of-its-kind surgical robot** for spine surgery. The company is backed-up by renowned private venture capital firms, the European Commission and the Medtech Innovator organization ([Medtech Innovator](#)).

We are looking for a **Software Development & Control Engineer** to be part of the Engineering Team with a specific focus in the development of software, embedded software and control algorithms to provide the robot with the functionalities needed by surgeons. This is an excellent opportunity for an ambitious, qualified engineer who would like to dedicate her/his talent to improving people's lives, as part of a young and dynamic team of experienced experts.

The candidate will have a great degree of freedom to put his/her talent into practice in this solid start-up.

Requirements:

- Master's Degree in Telecommunications, Electronics & Automation Engineering, Industrial (Mechanical) Engineering or similar.
- Genuine passion for software development
- Professional experience in the field will be an asset although not a must
- Willing to work hard
- Fluent in English

If you are interested please send an email with your CV, academic record and cover letter to info@denebmedical.com.
